In effect, voluntary change of submodalities on the part of the subject was often found to alter long-term the concomitant 'feeling' response, paving the way for a number of change techniques based on deliberately changing internal representations. NLP co-originator Richard Bandler in particular has made extensive use of submodality manipulations in the evolution of his work.

Hardcover: 221 pages Our beliefs are a very powerful influence on our behavior. It is widely understood that if someone really believes he/she can do something, he/she will do it; but if he/she believes something is impossible, no amount of effort will convince him/her that it can be accomplished. Our beliefs about ourselves and what is possible greatly affected our day to day effectiveness.
