By the author of the highly acclaimed *China's Imperial Past* and written in the same lively style, this is a distillation of what every general reader and beginning student should know about the history of traditional Chinese civilization. It weaves together chronologically all aspects of Chinese life and culture, broadly surveying general history, socioeconomic organization, political institutions, religion and thought, and art and literature. The author explains how the Chinese empire emerged in antiquity, how it flourished and declined in successive cycles for thousands of years, and how in the end it found itself unprepared for both the domestic and the external challenges of the modern era. The result is a concise overview that is both absorbing in itself and basic to a more detailed study of China's long and complex evolution. |

China may soon be the biggest economy in the world. This book is a practical guide to business practices, market conditions, negotiations, organizations, networks and the business environment in China. It is aimed specifically at Western and non-Chinese businesses and managers.

China has changed dramatically since the first edition of *Doing Business in China* was published in 2000, but the second, third and now this fourth edition have kept pace with the rapid developments. China is now far more international but the fundamental business culture has not altered greatly. The new edition of this highly successful textbook offers Western and non-Chinese businesspeople a theoretical framework for the understanding of business practices, markets, negotiations, organizations, networks and the Chinese business context. Building on the strengths of the previous editions, the book provides a guide to market entry, managing operations and marketing in this unique social and cultural environment by including: Factors that lead to business success 14 new or revised case studies, including include windfarms, fine wines and new consultancy businesses Discussion of marketing issues, notably products, pricing, distribution, advertising and promotion Dos and don ' ts when choosing business partners and negotiating Guides to further resources in local cultures to help businesses tailor their strategies to local conditions. Offering a fresh look at the evolving marketplaces and their interactions with government and the army, the fourth edition of *Doing Business in China* will continue to be the preferred text for international students of Chinese business and management studies and for practitioners with an eye on China.

Focusing on China during the last twenty-five years, the author illuminates the country's traditions, customs, political structure, and economy

In 1850, China was the "sick man of Asia." Now it is set to become the most powerful nation on earth. The Penguin History of Modern China shows how turbulent that journey has been. For 150 years China has endured as victim of oppression, war, and famine. This makes its current position as arguably the most important global superpower all the more extraordinary.

Two leading experts on China evaluate its rise throughout the past one hundred fifty years, sharing portraits of key intellectual and political leaders to explain how China transformed from a country under foreign assault to a world giant.

China today is never out of the news: from international finance to human rights controversies, global coverage of its rising international presence, and the Chinese 'economic miracle'. It seems to be a country of contradictions: a peasant society with some of the world's most futuristic cities, heir to an ancient civilization that is still trying to find a modern identity. This Very Short Introduction offers the reader an entry to understanding the world's most populous nation, giving an integrated picture of modern Chinese society, culture, economy, politics, and art. In this new edition, Rana Mitter addresses China's current global position, accounting for the country's growth in global significance over the past decade. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A panoramic survey of the course of Chinese civilization from prehistory to 1850, when the old China began to give way

A fascinating journey through 100 years of Chinese history, beginning with the historic Treaty of Nanking and ending with Mao Tse-tung's creation of the Chinese People's Republic, by the the acclaimed New Yorker correspondent who lived in China from 1935 to 1941 For centuries, China's code of behavior was incomprehensible to Westerners whom the Chinese viewed as irredeemable barbarians. Presenting historical events with an immediacy that makes you feel as if you were there, Hahn takes readers through isolationist China's difficult and often costly adaptations to the invasions of Western "foreign devils", —from the Treaty of Nanking in 1842, which gave the West access to five of China's eastern ports, to the British colonization of Hong Kong, the rise of the tea trade, the Opium Wars, the arrival of Christian missionaries, and the Boxer Rebellion. Hahn also illuminates the revolutionary movement led by Sun Yat-sen, the overthrow of the Ch'ing Dynasty, the escalating tensions between the Communist and Nationalist parties, and the Japanese invasion on the eve of World War II—which Hahn witnessed firsthand. The final chapters cover the civil war, which ended with Chairman Mao's formation of the People's Republic of China and Chiang Kai-shek's retreat to Taiwan. With an insider's knowledge of Chinese culture and the politics, Hahn delivers a sharply observant book that illuminates an unforgettable era in China's tumultuous past.

Chinese history is brought to vivid life by the "quintessential New Yorker narrator" and author of *The Soong Sisters*, who lived in China from 1935 to 1941 (*The New York Times*). Chiang Kai-Shek: As the head of the Nationalist Party, Chiang led the Republic of China for over two decades from 1927 through the Japanese invasion, World War II, and the civil war that ended with a Communist victory in 1949. After defeat, he retreated with his government to Taiwan, where he continued to lead as president of the exiled Republic of China. Published in 1955, this in-depth biography by legendary New Yorker writer Emily Hahn examines Chiang's childhood in southern China, his relationship with revolutionary Sun Yat-Sen, his rise to power, and his battles with the Japanese Imperial Army and Communist forces led by Mao Zedong, as well as chronicling his marriage to the glamorous, American-educated Soong May-ling (the youngest of the influential siblings portrayed in Hahn's *The Soong Sisters*), who converted her husband to Christianity and helped him enact social reforms. Casting a critical eye on Sino-American relations, Hahn sheds new light on a complex leader, who was one of the most important global political figures of the last century. "[Hahn] writes . . . with an impassioned warmth . . . colorful reading . . . An irreparable past is echoed in the forlorn note sounded here." —Kirkus Reviews *China Only Yesterday, 1850 – 1950: With an insider's knowledge of Chinese culture and politics, Hahn delivers a sharply observant book that illuminates a century of*
