The series of math workbooks and worksheets is designed as an independent learning structure for kids in kindergarten and first grade. In these workbooks there are collections of engaging math activities, and fun math crafts. The real-life math connects with STEM concepts to create a better understanding of the world around us. This approach encourages an active thinking process, easy communication of mathematical ideas, and problem solving. This helps build the foundation that will allow for more fun and faster learning in the future. The practice exercises in the worksheets are designed to provide children with further practice after they have done the relevant workbook exercises. Level 1 is recommended for children ages 5-6, and Level 2 is recommended for children ages 6-7. In all of the worksheets is embedded a STEM program to create a deeper understanding of each topic, as well as to explore the vast knowledge that the scientific fields have to provide. Both levels of worksheets also include hands-on projects to allow for a deeper understanding of the complex topics presented in them.

Contains research and current trends used in digital simulations of teaching, surveying the uses of games and simulations in teacher education.

Includes: Print Student Edition

There are so many different types of families, and THE FAMILY BOOK celebrates them all in a funny, silly, and reassuring way. Todd Parr includes adopted families, step-families, one-parent families, and families with two parents of the same sex, as well as the traditional nuclear family. His quirky humor and bright, childlike illustrations will make children feel good about their families. Parents and teachers can use this book to encourage children to talk about their families and the different kinds of families that exist.

Essentials of geometry -- Reasoning and proof -- Parallel and perpendicular lines -- Congruent triangles -- Relationships within triangles -- Similarity -- Right triangles and trigonometry -- Quadrilaterals -- Properties of transformations -- Properties of circles -- Measuring length and area -- Surface area and volume of solids.

Wilde's witty and buoyant comedy of manners, filled with some of literature's most famous epigrams, reprinted from an authoritative British edition. Considered Wilde's most perfect work.

After a powerful webinar that included educators from ten cities explaining the many incredible actions they took in support of the national Black Lives Matter at School week of action, Denisha Jones, contacted Jesse Hagopian to propose that they collect these stories in a book. Black Lives Matter at School succinctly generalizes lessons from successful challenges to institutional racism that have been won through the BLM at School movement. This is a book that can inspire many hundreds or thousands of more educators to join the BLM at School movement.
