Bruce Fisher's "Rebuilding" books and workshops have influenced hundreds of thousands of divorced persons worldwide. Built around ten carefully designed "lesson plans," the workbook offers a self-help or group work plan for systematic progress through the most important steps in divorce recovery. Included are sessions on the nine most important "Rebuilding Blocks" of divorce recovery: Adaptation, Grief, Anger, Self-worth, Transition, Openness, Love, Relatedness, and Sexuality. Each lesson plan includes behavioral objectives, a meeting agenda (including suggested group exercises), and "homework" for the following week's seminar. Self-help readers will enjoy the supplementary readings (poetry, articles, letters), specific exercises that may be completed alone, suggestions for affirmations, and other features of the "workbook" format. Divorce recovery groups find the Workbook an invaluable week-by-week guide as they share their experiences and work together to recover from the divorce crisis. The Workbook is widely used by therapists and other growth facilitators as a systematic plan for their seminars on divorce. Expert guidance from distinguished divorce therapist Bruce Fisher, together with the informal, readable, warm and friendly style of this manual, make the Rebuilding Workbook an outstanding resource for anyone involved in the process of putting life back together after divorce.

This revised and updated second edition features ideas from the latest research, more information on long-distance parenting, dealing with the courts, and working with a difficult co-parent. "Parents argue a lot before a divorce," says Dr. Stahl. "If they continue to argue after the divorce, their children will suffer." Stahl knows parents are not perfect, and he uses that knowledge to show imperfect parents how to settle their differences in the best interests of the children. Often required reading in court-mandated divorce education classes.
A positive step-by-step programme for putting your life back together when your relationship ends.
When an adult child's marriage ends, lots of folks are hurt. The divorcing couple, of course, and their children. Until now, however, little attention has been paid to the parents of the divorcees. Temlock's examination of this sensitive topic offers parents a friendly guidebook packed with helpful information and suggestions from parents who've "been there." Her five-stage model of the divorce process for parents (Accepting the News, Rescuing Your Child, Responding to Changes, Stabilizing the Family, Refocusing and Rebuilding) will help readers stay grounded through the emotional upheavals they'll share with their children and grandchildren. This practical manual puts an arm around the shoulder of parents of divorcing adults and supports them through the difficult days of the divorce process and its aftermath.
Guess which couple got more of what they wanted: Charles and Charlotte, who worked out a negotiated settlement together? Or John and Joyce, who let the court settle their differences? Couples who want to negotiate their own divorce settlements now have a comprehensive self-help guide, complete with ground rules, agendas for discussion, sample forms, and options for divorce mediation without "bloodshed." Not quite a "do-it-yourself" manual - you'll still need an attorney - but packed with real-couple examples of successful agreements on Co-Parenting, Custody, Financial Support, College Planning, Property, Insurance, Taxes.... An organized, thorough guide to the important issues for every separating couple, and an effective aid for those who seek professional mediation. "Your chances of getting the outcome you want are best when you take control of the decision-making process," says Martin Kranitz, Director of the National Center for Mediation Education in Annapolis, Maryland. "Couples can work out their own decisions, if they know what to talk about."
