Ken Rockwell

uncompressed option  
from the D70 because  
improvements in

compressor speed  
eliminated the need for  
the wasteful

uncompressed option.

The world thought  
Nikon was cheating  
them by removing the  
uncompressed option, so  
Nikon added it again in  
the D200.

D300 have sensor sizes so they will provide same level of control over the depth of field when used with same focal length and aperture. On the other hand, since Nikon D200 has 21% larger pixel area compared to Nikon D300, it has potential to collect more light on pixel level hence have less noise in low light /

The 'cheapest' upgrade path for a camera that will match or surpass the build quality and controls you have is the D800. D200/300/300s users are in a hard place right now for upgrades. The options to upgrade within the Nikon family:

1. Stick with our cameras (and live with whatever limitations they may have) 2.
