"Microbiology covers the scope and sequence requirements for a single-semester microbiology course for non-majors. The book presents the core concepts of microbiology with a focus on applications for careers in allied health. The pedagogical features of the text make the material interesting and accessible while maintaining the career-application focus and scientific rigor inherent in the subject matter. Microbiology's art program enhances students' understanding of concepts through clear and effective illustrations, diagrams, and photographs. Microbiology is produced through a collaborative publishing agreement between OpenStax and the American Society for Microbiology Press. The book aligns with the curriculum guidelines of the American Society for Microbiology."--BC Campus website.

The 9th edition of Zoology continues to offer students an introductory general zoology text that is manageable in size and adaptable to a variety of course formats. It is a principles-oriented text written for the non-majors or the combined course, presented at the freshman and sophomore level. New to the 9th edition are Learning Outcomes and Learning Outcome Review questions. Learning Outcomes help students identify and focus on the major concepts of each chapter. Learning Outcome Review questions conclude each major concept to reinforce critical concepts students have just studied and include critical thinking questions that assess their understanding of those concepts. Introducing Connect Zoology! For the first time in this discipline Connect and Connect Plus allow instructors to provide auto-gradable and interactive assessment material tied to learning outcomes and provide students better integration through live ebook links to animations, videos and audio assets.

Pommerville's Fundamentals of Microbiology, Eleventh Edition makes the difficult yet essential concepts of microbiology accessible and engaging for students' initial introduction to this exciting science.
