everything that exists today. Amazing facts, photography and illustrations bring our planet and its past to life in an exciting, engaging way.

Visual fluency for the digital native In a world of fast-moving news, unwavering digital exposure, and informational memes, kids (and adults) are bombarded with infographics. Presenting information in the form of images accompanied by minimal text, infographics convey an easily understood overview of a complex subject visually. Infographics for Kids playfully instructs readers on how information can be arranged and presented in graphic format, inviting kids to add their own personal touches with fun consumable activity pages that introduce key communications skills for digital natives.

What are phantom islands? How did the Black Death cause an ice age? How could graffiti save endangered tortoises? Find the answers to these questions and 97 more in this bold, graphic and exciting book, full of amazing things to know about Planet Earth. Illustrations: Full colour throughout

Me and the World is a colorful, eye-popping universe of infographics about global communities. This content-rich book teaches about other kids and cultures around the world, all while stepping back and really seeing the big picture. Me and the World is the perfect introduction for a generation entering an increasingly digitized, data-driven world.

- Packed with dynamic illustrated spreads about customs of other countries
- Invites readers to see themselves in its pages through a data lens
- Guided by a relatable, school-aged narrator Me and the World pairs visual literacy with data literacy, using colorful illustrations and infographics to present information in a way young readers will not only understand, but enjoy. Equal parts educational and entertaining, this makes a great pick for parents and grandparents, as well as librarians, science teachers, and educators.
- Perfect for reluctant readers, especially those who would otherwise gravitate toward numbers-based pursuits like math and science, rather than than reading
- The graphs, infographics, and maps are the perfect resource for educators looking for engaging content for children to understand data.
- Ideal for children ages 8 to 12 years old
- Add it to the shelf with books like The Wondrous Workings of Planet Earth: Understanding Our World and Its Ecosystems by Rachel Ignotofsky, The History Book: Big Ideas Simply Explained by DK, and The Science Book: Big Ideas Simply Explained by DK.
