In Tom Kundig: Works, the celebrated Seattle-based architect presents nineteen new projects, from Hawaii to New York City. Kundig's award-winning houses, known for their rugged yet elegant and welcoming style, are showcased in lush photography with drawings and sketches, and appear alongside his commercial work—from multistory complexes to the Tacoma Art Museum to a line of hardware (handles, door pulls, hinges, and more). In firsthand accounts, Kundig describes the projects and his design process with many personal anecdotes, making Tom Kundig: Works as much memoir as monograph. The book also includes an introduction by design editor Pilar Viladas and in-depth conversations with Kundig's frequent collaborators—"gizmologists" Phil Turner and contractor Jim Dow (Schuchart' Dow)—and clients (Bigwood Residence and Studhorse).

In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.

Ancient healer, modern medicine... Considered to be one of nature's most powerful anti-inflammatory ingredients, turmeric is a powerful medicine that has long been used in the Chinese and Indian systems of medicine as an anti-inflammatory agent to treat a wide variety of conditions, including digestion problems, jaundice, menstrual difficulties, toothache, bruises, chest pain and colic. Turmeric has been harvested for over 5,000 years in its native Indonesia and is a key ingredient in many dishes and medicinal remedies throughout the region. It is now rising quickly in popularity everywhere in the world as wellness seekers of all ages discover the health properties of this incredible food. Scientific studies now show that turmeric contains anti-cancer properties, may be helpful with inflammatory bowel disease, Crohn's, rheumatoid arthritis, help with improved liver function, heart health, may help to lower cholesterol and be protective against Alzheimer's disease. Turmeric becomes more active either when cooked or combined with other specific ingredients such as ginger and black pepper. Whether in root or powder form, turmeric can be used in juices, smoothies, infusions, soups, curries, pulses, stews, for roasting vegetables, adding to hummus, yoghurt and marinades for fish, meat or tofu. All the health benefits, how to use turmeric and 50 delicious recipes are included in this stunning cookbook.
