Self-awareness is the bedrock of emotional intelligence that enables you to see your talents, shortcomings, and potential. But you won't be able to achieve true self-awareness with the usual quarterly feedback and self-reflection alone. This book will teach you how to understand your thoughts and emotions, how to persuade your colleagues to share what they really think of you, and why self-awareness will spark more productive and rewarding relationships with your employees and bosses. This volume includes the work of: Daniel Goleman Robert Steven Kaplan Susan David HOW TO BE HUMAN AT WORK. The HBR Emotional

Online Library Self Awareness Activity Guide

Intelligence Series features smart, essential reading on the human side of professional life from the pages of Harvard Business Review. Each book in the series offers proven research showing how our emotions impact our work lives, practical advice for managing difficult people and situations, and inspiring essays on what it means to tend to our emotional well-being at work. Uplifting and practical, these books describe the social skills that are critical for ambitious professionals to master.

THE STUDENT EQEDGE Facilitation and Activity Guide This Facilitation and Activity Guide is a companion to the book *The Student EQ Edge: Emotional Intelligence and Your Academic and Personal Success*. It offers faculty and facilitators a hands-on resource for helping students reach their potential by tapping into the power of emotional intelligence. The Facilitation Guide includes exercises and activities which are designed to help students develop confidence, independence, the ability to set and meet goals, impulse control, social responsibility, problem-solving skills, stress tolerance, and much more—all of which help improve academic success. The Guide also contains a wealth of illustrative case studies, questions for student reflection, movie selections and TV shows that illustrate emotional intelligence, and a self-development plan. "The single best resource on emotional intelligence in student affairs, *The Student EQ Edge: Student Workbook and Facilitation and Activity Guide* are well organized, creative, and offer everything an emotional intelligence facilitator would need in a fast-paced student affairs environment. The examples are soundly constructed and resonate with students. These materials are my go-to resources."—Candice Johnston, associate director of student leadership and organizations, Wake Forest University "If I were building a new course to improve student success, it would be founded on emotional intelligence. All the instruction in the world on 'study skills' cannot touch the advantages that come to students who are able to manage their emotional intelligence. And the best news of all is that these skills can be

Online Library Self Awareness Activity Guide

taught. EQ skills make the difference." —Randy L. Swing, executive director, Association for Institutional Research "This Facilitation and Activity Guide is particularly useful, offering options from which the facilitator can draw in preparing assignments or learning community meetings. The focus on learners' needs, and particularly an authentic exploration of self and purpose, is practical yet has the potential to draw students to a deeper understanding of self that will draw them to high performance and contribution to others." —Dennis Roberts, assistant vice president for faculty and student services for the Qatar Foundation

In over 45 years as a practicing psychologist, social entrepreneur, and professor, I have learned that emotional intelligence is the key to success in work and in life. I also know that becoming more self-aware is the key to developing strong emotional intelligence. I have taught, coached, and counseled people on how to become more self-aware and how to develop their social-emotional competencies. Both activities lead to higher emotional intelligence. This book presents the best practices developed and delivered in my teaching and in my psychology practice. Some of the stories and exercises in this book came from my previous book *Balanced Leadership in Unbalanced Times* (2009). I published some of the stories and exercises as articles on my blog at RobPasick.com. Please visit as I will continue to write there. I wrote this book because not everyone who needs this information is here at the University of Michigan to take my class. While it's nice to have a teacher and coach to help you through the process, you can learn a lot by yourself through reading this book and working on its exercises. If you follow the process, you'll end up with a self-made vision for success in both work and life. Furthermore, you will learn to set goals and develop the support that will enable you to make your dreams come true. **How to Use this Book** This book reflects the process I use in my coaching and teaching. You will be asked to read, reflect, answer questions, and engage actively in a series of exercises. Some exercises will require the participation of significant people in your life. You will be guided

Online Library Self Awareness Activity Guide

through exercises designed to: Help you find your career sweet spot. Establish a vivid vision of your dream success in career and life. Establish goals in the key spheres of your life: family, friends, mind, body, spirit, career, and community. Determine how the right balance in these spheres will lead to choices that maximize your chances to be happy and successfully choose the right mate. Better understand others. Better manage your relationship with yourself. Better manage your relationship with others. Endorsements "When a successful person has 45 years of experience, and chooses to boil all he knows down to the essence, it is wise to pay attention. In this book, one of the most successful coaches I have ever known promises to mentor you into an elevated version of yourself. I think it is a must read." -Robert E. Quinn, Author of The Positive Organization "When Rob Pasick speaks, people listen...and when he writes, people want to read it...and that's because Rob has a clear mission in mind with all his words...he wants to help people put everything in their lives in perspective, in the proper place. "Self-Aware: A Guide for Success in Work and Life is a book that is clear, concise and easy to understand. It will make a difference in how you balance your professional and personal life and it may make a difference in what you end up doing. I have known Rob for years, and he is a wise and caring and ever so smart man who wants to guide young men and women, helping them to be the best they can be. Rob really cares and puts so much thought into realistic ways to have professional success and personal happiness. This is a book you won't want to miss!" -Cheryl Chodun, former TV news reporter, WXYZ, Detroit and Adjunct Professor at Madonna University. "Rob Pasick is a man of deep passion, compassion, and wisdom. Throughout these pages, all three are woven beautifully." -Michael H. Samuelson, Author of Beyond Cancer Survival: Living a Life of Thrival

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence

Online Library Self Awareness Activity Guide

on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

I bought the book to support my program with Native American spiritual growth. The book is great and the CD that comes with it is wonderful. This is not a book to casually read, it's a book to use as a guide for practices to enhance your self-awareness. You won't get how wonderful and useful the book is unless you are committed to doing the work that is provided. I would suggest that if you are serious, contact the author and ask to do the program with her as a support to answer your questions as they come up. It goes deep if you're willing to do the work.

Cultivate self-awareness, empathy, and clinical competence in the mental health professionals you supervise. Providing tested guidance for clinical supervisors of mental health professionals, editors Roy A. Bean, Sean D. Davis, and Maureen P. Davey draw from their own backgrounds in training, private practice, and academe, as

Online Library Self Awareness Activity Guide

well as from an international panel of experts representing various mental health fields to provide activities and best practices that allow therapists to better serve an increasingly diverse set of clients and issues. While clinical skills are easily observed, the more subtle areas of self-awareness, or exploring unexamined judgments are more difficult to spot and to provide supervision and guidance for. The numerous experiential activities included will help supervisors and the mental health professional they supervise develop their skills and techniques around: Intuition Empathy Self-awareness Mindfulness Multicultural awareness Perspective taking The book covers both clinical as well as diversity-focused competence and awareness, and suggests various forms of activities, including research exercises, reflection, journaling, and more. Each activity includes measurement metrics as well as additional resources that help clinicians identify the best activity for a given situation. Appropriate for clinicians at every level and from a multitude of backgrounds, these tried and tested best practices can be used in clinical supervision, as a class assignment, or to facilitate professional growth.

Creating Kind and Compassionate Kids offers lessons and activities that promote problem solving and social-emotional learning, allowing students in grades 3-6 to become more aware of themselves and others who share their world. Each lesson: Addresses both cognitive and affective skills, enhancing students' appreciation of themselves and others. Encourages students to think creatively and critically. Teaches vital affective skills, such as empathy, tolerance, compassion, communication, and leadership. Includes one or more samples of student work to guide students' responses. Has been tested by teachers in multiple classrooms with students of all ability levels. With its focus on relevant, lasting learning experiences that encourage social and emotional growth, Creating Kind and Compassionate Kids is a resource that teachers will turn to again and again. Grades 3-6

Feeling different, especially as a kid, can be tough. But in the same way that different types of plants and flowers make a garden more beautiful and enjoyable, different types of people make our world more vibrant and wonderful. In *Just Ask*, United States Supreme Court Justice Sonia Sotomayor celebrates the different abilities kids (and people of all ages) have. Using her own experience as a child who was diagnosed with diabetes, Justice Sotomayor writes about children with all sorts of challenges--and looks at the special powers those kids have as well. As the kids work together to build a community garden, asking questions of each other along the way, this book encourages readers to do the same- When we come across someone who is different from us but we're not sure why, all we have to do is *Just Ask*.

With this unique kids' activity book, parents can finally stop fighting their kids and inspire them to actually want to get dressed in the morning, brush their teeth, eat their dinner, finish their homework, clean their room and sit still in the car. Dayna Abraham, a certified child educator, was successfully using sensory activities with her son who has Sensory Processing Disorder when she discovered that they also made a difference in her other children who didn't have the disorder. She now shares 101 of the best sensory activities to help all kids succeed during times of the day when they have the most trouble focusing and being patient, whether it's getting out the door on time in the morning or peacefully eating a meal with their family at a restaurant. These activities are lifesavers to parents and caretakers, as they engage kids' senses in a unique way that helps the kids remain calm and focus on the task at hand. Example activities and useful crafts include 2-Ingredient Focus Dough to help kids focus on homework, Blindfold Taste Tests and Moody Meals to help them try new foods, DIY Worry Stones to help them battle separation anxiety at school or daycare, and Rainbow Sensory Rug to help them wind down at the end of the day. The book is written to kids in a fun

Online Library Self Awareness Activity Guide

superhero theme that encourages and helps them let their true awesomeness shine all day long!

It's never too early for self-awareness, empathy, and joy Your toddler or preschooler lives in the moment, but they can still feel overwhelmed. Mindfulness for Little Ones helps children ages 2 through 5 move toward healthy coping skills and behaviors with playful, developmentally appropriate activities. Designed to tap into your child's innate curiosity and boundless energy, these fun activities promote the repetition, sensory play, and positive emotions that develop mindfulness for kids. This useful collection of activities approaches mindfulness for kids with: Learn with fun--Dance, wiggle, create, and explore with playful activities that engage the senses and nurture positive emotions, empathy, and self-awareness as mindfulness for kids is instilled. Not just for kids--A co-regulation guide helps parents and caregivers model mindfulness, even when little ones act out. Mindful organization--Activities are grouped by themes that support different aspects of mindfulness for kids, from awareness of the body and emotions to cultivating joy and empathy for others. By developing mindfulness for kids, toddlers and preschoolers alike will acquire the core skills they need to grow and thrive.
