# Read Online The Language Of Genes Steve Jones

The Language of Genes by Dr. Steve Jones is not a textbook in genetics, but rather an expose on how the the study of genetics began and why (to prove bloodlines in royalty). He is thorough in covering the field of genetics, beginning his tour with Mendel's peas and taking us to the Human Genome Project (which was only in the inital stages at the writing of this book).

Steve Jones: The Language of the Genes: 1991 - BBC Summary. Commissioned by the BBC to deliver the Reith Lectures in 1991, Steve Jones has used them as the basis for this book which argues that the evolution of our genes may be compared to the evolution of language. Genetics, argues the author, can help us unravel the mechanisms and fortunes of human evolutions in far more detail and with much greater confidence than was
